March 18, 2017

The Village of Pemberton
Box 100
Pemberton, BC
V0N2L0

Dear Lisa Pedrini and the entire VOP Council.

Re: C-3 zoning and request for permissible nightly rentals.

Over the past few months, the Pemberton + District Chamber has had feedback from community stakeholders and conversations with Tourism Pemberton around the shortage of short term accommodation for visitors and temporary housing for the trades as an example.

Just recently we received a letter from one of our Chamber Members and new owner of the Pemberton Gateway Residence building which ultimately triggered this letter of support to their proposed zoning amendment.

The Pemberton & District Chamber of Commerce supports the preservation of tourist zoned accommodation and is not opposed to a mix-use building "Allowing for residential use, long term rentals or short-term accommodations (operating under a similar Phase 1 Covenant use)". Pemberton does have a shortage of nightly rental units and we support the concentration of these properties within areas such as C-3 as a preference over residential areas. These areas offer close proximity to restaurants and services which is beneficial to our local businesses and these units are needed to support tourism in our community.

The Pemberton & District Chamber of Commerce is dedicated to enhancing the quality of life in our community by actively supporting business, economic growth and diversification. We pride ourselves in serving and promoting the entire area – Pemberton, Mount Currie, Birken, D'Arcy and all of Area C.

Yours truly,

A handwritten signature in blue ink, appearing to read "G. Turner", with a small blue dot at the end of the line.

Dear Lisa Pedrini and the entire VOP Council.

RE: 2018 Draft Zoning & Sign Bylaw

On behalf of the Pemberton & District Chamber of Commerce, please accept this letter in regards to the 2018 Draft Zoning & Sign Bylaw.

After reviewing the 2018 VOP Zoning Draft and the feedback we have received from various PDCC Members the Pemberton & District Chamber of Commerce supports the proposed removal of any further "Drive Through Service" Zoning in C3 and the removal of "Drive Through Service" Zoning in C2.

Further the removal of any further "Drive Through Service" Zoning in C2 & C3, the Pemberton & District Chamber of Commerce board of directors recommends to remove the "Drive Through Service" zoning in C5 which was recently re-zoned to allow Drive Through Service.

With regards to the Town Centre C-1 Zone; i.e. Auto Repair Shop (*Black's Hot Wheels*) and Equipment Servicing, Rental and Repair Shop (*Valley Chainsaw and Recreational, Ltd.*)

The Pemberton & District Chamber of Commerce board of directors were split on this proposed zoning with 3 / Yes, 3 / No and 1 on the fence.

We all agreed that while the Pemberton Chamber fully understands and support the concept of redevelopment and enhancement of the downtown core, but this tact doesn't feel right. To change the status specifically on these two long standing local businesses from a site-specific permitted use to 'lawful non-conforming' will not only hinder them from making any alterations or additions, it may actually de-motivate them from enhancing their business which in turn would improve the aesthetics of the downtown core.

Feedback from the board:

-If the rationale of this approach is to encourage the redevelopment and enhancement of the downtown, should this not apply to AC Gas Station, BC Hydro, TELUS, The Legion, RCMP, the Museum and the Village of Pemberton?

-Could the Village not work with the businesses to possibly provide an incentive to relocate and or improve the current aesthetics of their business? I.e. Relocation support, tax relief and or financial incentives?

-Having these types of business in the downtown core of a small community when kept clean and professional is not necessarily a bad thing. Pemberton is a unique farming town among other things and we feel unique zoning & bylaws should reflect this.

The Pemberton & District Chamber of Commerce is dedicated to enhancing the quality of life in our community by actively supporting business, economic growth and diversification. We pride ourselves in serving and promoting the entire area – Pemberton, Mount Currie, Birken, D'Arcy and all of Area C.

Yours truly,

Graham Turner,
President

May 23, 2018,

Mayor Mike Richman & Council , Village of Pemberton,

May 23, 2018,

Mayor Mike Richman & Council ,
Village of Pemberton,
Box 100, Pemberton, B.C., V0N 2L0

Dear Mayor & Council :

Rezoning Drive Thrus

The Tourism Pemberton Board of Directors is in full support of rezoning C2, C3 removing Drive Thrus. We also support the reversal of the decision to allow drive thrus in C5.

Tourism is an economic driver in our community that generates millions of dollars. As many municipalities can attest, drive thrus create environmental challenges with idling vehicles. At a time when we are committed to redeveloping our downtown core, allowing drive thrus would create the grab and go attitude. As an example we believe a high percentage of the 164,000 visitors to Joffre Lakes that now come into town as evidenced by many retailers would diminish and have a significant negative impact on the tourism dollars spent.

Yours truly

A handwritten signature in black ink, appearing to read "Mark Mendonca".

Dear Mayor and Council

Re: C-3 zoning and request for permissible nightly rentals in the Pemberton Gateway building.

On October 6, 2018 I bought the Pemberton Gateway building and set out to turn the building around and make a positive impact in the community. In December 2017 it came to light that the way I, my lawyer and my realtor had interpreted the zoning bylaws was in fact different than the Village. As a result, my plan to provide a progressive flexible housing option responsive to the local market ground to a halt. Consequently, I chose to offer the condos for sale to residents in compliance with the Villages priority of making more room for permanent residents.

This has caused me to hold the property much longer than anticipated in which I've gleaned insight to how the building has filled a gap in accommodations within the community.

After writing a distressed plea letter for help, I was granted a transitional period allowing me to operate the unsold inventory for nightly rentals to pay the bills. I now would like to campaign for this specific building to continue in its current form as one that will provide both long term affordable accommodations while being responsive to changes in local transitional demand.

I believe that allowing us to be able to self govern and operate in a matter without restrictions will serve the community in 2 ways:

- 1) Provided more housing for residents in alignment with the VoP's general community vision;
- 2) Support your economy by hosting tourists and housing your trade workforce.

While the lodge is nice, it is high priced. While the Pemberton hotel is very affordable, it is motel quality. There is nothing in between and this is where we fit in.

We are a priority choice for many labourers, government workers and extended stay family members. These people are patrons to many local businesses and return every year.

On May 1st I sat down personally with Lisa Pedrini, Sheena Fraser and Cameron Chalmers to discuss my opinions and requests. I was told that the Council's position on short term rentals is very inflexible, that Pemberton is not a resort community and that Council is not supporting *short-term rentals outside of the residential neighbourhoods while being Primary residences.*

I suggest there is a better way.

If the Pemberton Gateway is no longer operating any short-term rentals, 22 suites are effectively eliminated from the community's accommodation pool. That's going to increase prices for both the lodge and the hotel. It will create a duopoly resulting in accommodations that are less affordable; the very thing you wish not to do.

It is also very likely that due to demand, there will be more unauthorized short-term rentals popping up in undesignated neighbourhoods. As long as there is a demand for it, people will try and capitalize.

I am suggesting that we designated this building to allow it because it has always been operated that way, we have the right location for it, and we have the management experience to be able to enforce it.

It was asked of me if the current owners who bought into the building had notice that the building was operated this way and the answer is yes. I will point out section 2.1 and 2.2 in the disclosure statement where it describes this as well as Paragraph 7.2 in our purchase and sale contracts, in which every single owner has signed.

I am asking for the ability to offer nightly rentals in this building specifically, as well as the ability to own and live in it permanently full time. This is a way to open more homes to local residents while still maintaining the inventory for short term stays. Many buildings in Whistler have accomplished this successfully, (PHASE 1 restrictive covenant) and I believe we can effectively operate and co-live harmoniously. The management and enforceability would be restrictive to the Strata and not fall on your workloads.

I have recently become a Chamber of Commerce Member and I have spoken passionately about this cause and been met with support advocating in this direction. I expect to involve the Chamber to be my voice and the voice of many others. For as many people that may not want to see this happen there are just as many that do. People want to live in the community. People also want to invest in the community, but sadly the long-term rents to cut it. The ability to rent out nightly is the bridge to making it affordable.

I also heard a comment that what the council does not want to see is a long-distance owner, say a Vancouverite, renting it out from afar. The feeling around this is that there is disbelief in the ability of a distant owner being a *good neighbour*.

Well, I **am** that Vancouverite that is managing 22 properties (now 15) from a distance.

I ask you this Mayor and Council, have I caused the Village any problems?

Have you received noise complaints from any of my guests/owners?

I have a record and contact information for every single guest and owner in the building and everyone has mine. I also run the building as a community having hosted new Owners for a social gathering and keeping everyone informed of events.

I have made personal monetary capital improvements around the building for the simple fact of elevating its presence without knowing if I will earn those dollars back. This includes new hallway carpet and freshly painted walls. I have also removed 60 tons of garbage and junk that Myson had stored in the burrows of the building for 8 years, plumbed the entire building for in-suite laundry (which was a

massive undertaking having to cut holes in every single suites ceiling including coring the concrete of the commercial 1st floor to bring this option to owners) and done so on my own merit and cash. This endeavour has cost me near, but it is something I believe in for betterment of everyone's investment. I have paid for and cleaned up the parkade that quite literally likely has never been done (ever) and painting numbers on the stalls for ownership allocation. These improvements have costs me near \$80,000 all been done with my own cash out of the intention to make a small positive impact and leave the Pemberton Gateway better than it was before.

Myson Effa & Ela are no longer employed with me and I have replaced the cleaning crew, hired the Strata management co, am the Strata President and operating the remaining unsold inventory as short-term rentals single headedly. I also have a family and two daughters 6 & 8 years old.

So? Am I a bad neighbour? Is that *Vancouverite* having a rental investment going to be a bad landlord?

No. *That* person is going to be a poor neighbour based on who *they* are whether they live in the property or control it remotely.

My ask is that you grant us the ability to facilitate short-term rentals in the Pemberton Gateway Residences.

In Summary

"Notwithstanding" request

The Purpose

To modify and modernize the current zoning proposal to be in line with the needs and benefits of the community and to provide a dual-purpose solution to the economic situation.

The Needs

Affordable residential housing

Short-term accommodations to support the economy (i.e Housing trade workers, wedding guests, government workers, temporary staff housing, ski professionals, etc...)

The Problem

The current zoning only allows for one or the other and by doing so, it suffocates a lifeline on each end.

If it's all *Residential*, Pemberton loses 22 suites that it consistently relies upon.

If it's all *Hotel*, it voids the opportunity for young individuals and families to establish roots here contributing to overall growth and sustainability of the community.

Proposed Solution

Allowing for residential use, long term rentals or short-term accommodations (operating under a similar Phase 1 Covenant use)

Definition: Phase 1 rental pool covenants are less restrictive than Phase 2 rental pool covenants. Phase 1 covenants are intended to maximize occupancy of properties for use by owners and visitors. When not in owner use, the covenants generally require the accommodation units be made available to the public through a rental pool. For properties where the covenant does not specify a single, integrated rental pool, RMOW Council policy supports multiple rental booking and unit management arrangements within a property, including the self-management rental of units by owners

This building is the perfect pilot project as it's previous use and location offers a blended solution.

Market Research

There is a demand for both uses in this building? I sold units each way.

I sold 4 units immediately to local buyers under the *hotel* model before having to collapse them and redirect. I have now 4 contracts in place under the *residential* model.

It's obvious why the residential Buyers likes this property, but Buyers also liked the hotel model because it provided built-in housing for family members and staff housing while being able to rent it out when not in use. It was the perfect way to buy a piece of affordable real estate for their own use, have 100% control over it, renovate and improve quality as they see fit while also being able to pay the bills.

There is no currently no product available to do this. People want to invest and plan for their futures. They are going to do it anyways and this is an opportunity to keep their money in Pemberton.

The Negative Effects

Losing 22 short term accommodations may:

Cause rates to increase as supply decreases.

Reduced Tourism resulting in less clients for local businesses (ie: the wedding and food industry, and other service providers).

No place for trades to stay. The Gateway houses many trades that work on roads and build houses in the surrounding area. If there is no accommodates they cannot work.

Push more short-term accommodations into residential neighbourhoods.

Goal

Accommodate both needs through a flexible use bylaw.

This would allow The Gateway to serve multi-purposes and therefore sell to Owner-Occupiers and local Investors alike.

Mayor and Council
& Lisa Pedrini, Senior Planner
Village of Pemberton
Delivered via Email: lpedrini@pemberton.ca

Dear Mayor, Council Members and Ms. Pedrini, Senior Planner

Re: The proposed removal of Drive – Through restaurants in the C-2 (Tourist Commercial) zone

We are the owners of 1443 Vine Road, Pemberton, a large vacant parcel of land located behind the Husky and McDonald's outlets. We purchased this property in September 2011 with the intention of developing the property for commercial uses allowed under the C-2 zoning to meet the growing needs of local residents and travelling public, and to contribute to the economic and social prosperity of the community.

In August 2017 we met with the Village of Pemberton staff to review our proposed mixed use development for the property which includes a Tim Hortons drive-thru restaurant. Please see attached site plan. Since then we have completed the geotechnical investigation of the property and have further refined our site plan. In all our discussions with the Village staff over the years there has been support for a drive-thru restaurant on our property.

We are opposed to the proposed removal of Drive-Through restaurants in the C-2 zone. We believe this is a short sighted proposal which will limit services to all the people living in the Village and the surrounding region including tourists and travelers. The proposal is discriminatory against properties like ours which currently allows for drive-thru restaurants. Should the proposed removal go ahead then one existing drive-thru restaurant in the Village will be given an exclusive and only drive-through business in this growing region.

Our proposed development is near completion for submission for a development (and rezoning for the residential portion) permit. We are requesting that at the very least our property be exempted from the proposed removal of Drive-thru use allowing us to proceed with our development.

We trust you will take our concerns and our opposition to the proposed removal into consideration before making a decision.

Sincerely

Rita J. Dhahan

Message to Mayor & Council: I am writing in regards to proposed Bylaw #832, namely the changes to Commercial Zones in the downtown core. I find it unfair to discriminate between businesses when you say that AC Petro and Mountain Glass can remain but Valley Chainsaw and Blacks Hot Wheels must move. This is unfair to these long time businesses and completely unjust. I understand you want a quiet downtown core but you can't simply kick out long time business owners. They have worked hard to build their businesses and this is their livelihood. Please rethink this part of the proposed bylaw. Regarding Drive-In restaurants, I am opposed to having any more Drive-Ins in Pemberton, these will likely be chain restaurants that take away from the unique character of our town. Thank you for your time.

Message to Mayor & Council: I strongly oppose the proposed bylaw changes that will effect Valley Chainsaw and Blacks Hot Wheels. I also do not support your plans for downtown revitalization that actually decrease the number of parking spots. This town is growing, we will need more parking, not less. Not everyone can walk/bike to town, much less so in the winter. Use some common sense please. Perhaps we should also look at limiting growth. More high density housing is certain to expose the huge lack of infrastructure we have here...enough already!

Message to Mayor & Council: I am writing to you to let you know that I am not in agreement with your plan to change the zoning of the properties where Valley Chainsaw and Black's Hot Wheels operate. I own the closest residential property to Valley Chainsaw (my lot is the one directly across from their front door but my address is Fernwood Street) and I have no complaints whatsoever about the noise. We do hear engine noise, but it is very minor and does not affect the enjoyment of our property whatsoever. In fact, I have actually never heard anyone I know in the downtown core make any complaints about the noise, so I question where this is coming from. We use Valley Chainsaw regularly for many of the services they provide and we hope to continue to do so for years to come. We love the accessibility of their location and we feel it is vindictive and unfair to downzone them in an attempt to have them move. We do not agree with the rationale to change the status of these semi-industrial uses to legal non-conforming, in hopes that this may encourage them to move out of the Town Centre and make room for more pedestrian-oriented commercial (retail or office uses) that rely on the day to day public. In fact, quite the opposite. We feel that the services that both companies provide are beneficial to other business in town because patrons of Valley Chainsaw and Black's Hot Wheels become patrons of the cafe's, restaurants and shops BECAUSE Valley Chainsaw and Black's Hot Wheels are there. I would be remiss to neglect to also note that I find the fact that the Mayor has plans to open a restaurant with a new and improved outdoor seating area in relatively close proximity to Valley Chainsaw a conflict of interest. Please confirm that this communication was

received and will be reviewed and considered prior to the Public Hearing scheduled for June 26, 2018. Regards, Erica Finnsson and Mauro Nunez

Message to Mayor & Council: Please explain why pressure and restrictions are being put upon valley Chainsaw and blacks hot wheels? These businesses were here long before anything else and they deserve to stay exactly where they are (if anything being supported in their growth). Pemberton is a town based on farming, logging and outdoor recreation and a vehicle mechanic plus tool mechanic are essential to this town. In addition, consider the revenue brought to other businesses (coffee shops, B&B's, the lodge, restaurants, grocery store) from the sledding, dirt biking etc. Without valley Chainsaw, I would worry that other businesses may struggle, especially in winter. Any council that puts pressure on these businesses will lose a lot of support. I would certainly vote against this council in future purely based on this issue. I urge you all to reconsider what you're trying to achieve (turning Pemberton into another Whistler????), and leave things the way they are. Or if you're all about moving businesses out, then how about move the village works to the industrial park?

Message to Mayor & Council: Hello, I'm writing to share my opinion about the proposed bylaw that would kick Valley Chainsaw and Black's Hot wheels out of the downtown area. I am strongly opposed to this bylaw as I value having their services in a convenient location. With these businesses in town, I am able to maintain having one vehicle for my family. Additionally, I feel very strongly about maintaining Pemberton as a functional town, and not selling out to the Whistler style tourist hub. Please consider the long time residents when introducing new bylaws, instead of thinking of how to cater to tourists. There is currently many vacant commercial spaces available, so that argument is invalid. Thank you for considering the recommendation from the people you represent.

Cc: .ca; .ca
Subject: Opposition to bylaw 832,2018 regards to zoning changes of 2 downtown businesses

I'm writing this letter in strong opposition to bylaw 832,2018. I am very concerned about the proposed changes to the new zoning bylaw that will make Black's Hot Wheels and Valley Chainsaw " Legal-non conforming " businesses by down zoning our "site specific" zoning . We both own our buildings and lots that we operate from, we bought them in good faith that our zoning would be secure.

In the minutes from April 26, 2018 Section 4 Subsection C (commercial zones) I was shocked to read "in hopes that this may encourage them to move out of town". This is not in the best interest of the community nor a respectable position for local government to take in relation to providing a fruitful business environment. This town is built on local community businesses, and to now find that we have local government whos position should be to encourage local business, is in fact unilaterally taking steps to make business intolerable in order to "encourage them to move out of town" is appalling. Considering the fact that the heritage of this town and foundational building blocks of Pemberton were due to the logging industry and still are, with Valley Chainsaw and Blacks Hot Wheels directly contributing to the well being and consistent servicing of the main industry of this town you would think that these businesses would be on the forefront of your consideration to maintain the stability of these establishments within the town center of Pemberton. Our customers and visitors love the fact that they can get their car fixed while they get their groceries, have lunch, or enjoy many of the other local business in town. The economic spin off that these two businesses bring to the down town core cannot be ignored. How many businesses have come and gone from this town in the last 20 years? Pemberton is a tough place to have a business, HIGH RENT, HIGHER TAXES and proximity to the city. These two businesses have stood the test of time which should show the need for them in this town. At the June 12th meeting when I asked how many towns do not have these services in them, was told "lots of towns" without citing one. I cannot think of one.

With regards to the letter that was presented to us by Lisa Pedrini, it stated that one of the main concerns for the Village was "the close proximity of your auto repair business to the Village's aquifer". I find this statement acrimonious at best. This establishment was here long before the well was in place, and the village would of had to have an environmental study completed prior to having a well drilled. If the position at that time was that there was not any environment concern or contamination in soil samples so as to go ahead with a costly venture of completing an aquifer, then the current assumption that this is now an issue is merely another tactic on behalf of the Village of Pemberton to exert its will to achieve its goal. At the meeting I was told by Niki Gilmore that I could apply for re-zoning in a similar to fashion as what

Bc Hydro had to do. However, as a small business and not withstanding the fact that I do not have the financial backing like Hydro, this is not very considerate. To that I have to ask, why change my zoning only to tell me that I can apply, with a significant cost to myself, to ask for rezoning. Not to mention that the application would probably not be entertained. I also have concerns about future building permits and if they would be granted for new construction. Again at the meeting on June 12th, Cameron who was in charge of creating the new By-laws said that it would be allowable. I would appreciate a letter stating that in writing as I would like to make improvements to the original building built back in the 50's.

To say that this zoning change will "encourage them to move out of the town" is a really shocking statement about businesses that has been here serving this community longer than most of you have been in Pemberton. This town was built around services like ours and Albert's. People love the fact that they can get their car fixed while they go get their groceries, go buy lawnmower parts, go have lunch or whatever, in this one stop shop town. It also is surprising that they would take our zoning away when the Village itself has it's own industrial works yard in the village just up the street from us.

When we bought this business it was run into the ground and no one wanted to come here. It was a sore spot in this town selling drugs and bringing a bad element into our town, it has taken ten years of our life to make it a thriving business again. We were happy to purchase the building when the time came because things were going well and we were tired of paying crazy rent. We pay our taxes, buy our business license every year and employ 7 people in this town who all spend money in this town. I feel that this council has forgotten who works for who and who pays their wages.

The VOP says that Valley Chainsaw and Blacks Hot Wheels are not retail outlets, to that I wonder if they have ever been in either establishment. Tires are a retail item, but they have to get onto your vehicle some how. We provide that service. Valley Chainsaw is also 90% retail providing snowmobile, lawn and garden and saw parts to the public, they also provide repairs to such items as a service to the community.

Subject: Bylaw 832, 2018

Mayor and Council,

We are writing to Mayor and Council to voice our concerns about the proposed Bylaw 832, 2018. We realize that, while they are still able to remain and operate their businesses, the zoning change that puts Black's Hotwheels and Valley Chainsaw in legal non compliance is unfair and creates the perception that these businesses and the people who own them are not welcome to operate in the village.

In his Facebook post regarding this issue Mayor Richman stated that it is unsafe for children to walk past a parked loaded logging truck in front of Blacks on their way to school. How is that any more unsafe than children walking past a parked loaded lumber truck that is actively being unloaded by a forklift at Rona across the road? As for the safety of the aquifer why not work with Blacks to make sure they are in compliance with oil and other automotive fluid storage and removal. (Which I am sure they are)

To single out these two long time local businesses in this proposed bylaw and "encourage them to move out of the town centre" when there are other equally semi-industrial operators in town that are not included in the bylaw is blatantly discriminatory.

As the owners and operators of a farm up the Meadows we use both these businesses on a regular basis. Their location in town is convenient for us and our farm where getting things repaired or purchased in a timely fashion is crucial.

Blacks Hotwheels and Valley Chainsaw are a part of the fabric of our town. Treating them this way is just not okay.

We would encourage Mayor and Council to consider scrapping this proposed bylaw which is exclusive and come up with a plan that is inclusive for ALL businesses in Pemberton.

Thank you,

John Beks

June 13th, 2018

Dear Mayor and Council:

I am writing to express concern regarding the rezoning of Blacks Hot Wheels and Valley Chainsaw and Recreational Ltd.

It is beneficial to have these two businesses in the Village core for three key reasons: preservation of town identity, carbon footprint, and economy.

Town identity. These two businesses have been cornerstones of the Village of Pemberton, the Village core, for close to forty years. We are very lucky that Stephen and Robin Black (Blacks Hot Wheels) and Albert Bush (Valley Chainsaw and Recreational Ltd) are so dedicated to this community. They provide a community service to the town folk (such as myself), the Area C residents who live in the surrounding areas, and many visitors who come from all over the world. These two long-standing businesses are the backbone of the Village core and they are the bridge between the past, present, and future of the Village of Pemberton.

Carbon footprint. With these two shops located in the Village core, our carbon footprint is greatly reduced. Less fuel is burned as town is a one-stop-shop. In my case, I can even walk everywhere I need to go so therefore there are no unnecessary emissions released. However, if Valley Chainsaw was relocated, or worse, closed its doors, I would need to drive to an alternate location to purchase simple retail items such as belts, kits, helmets, chains, workwear, boots, oil, Aspen fuel, or that obsolete bolt that I need which Valley Chainsaw likely has tucked away in a back corner (might I add that this also part of the charm of our town). Moreover, if Blacks Hot Wheels was no longer located in the Village core, four times as much fuel would be burned (and emissions released) to drop my vehicle off as I would need a ride back to the Village core, and then upon job completion, a ride back to my vehicle only to have both vehicles drive back to town again. The thought of this possibility greatly disheartens me.

Economy. Blacks Hot Wheels and Valley Chainsaw draw locals, visitors, business and development into the Village core. With every snowmobiler and professional snow-sport athlete who arrives in the winter to every flat tire that shows up in the summer, the Village core benefits. The commonality between these people is that they spend money in our town: fuel, lodging, restaurants, supermarkets, sporting goods, General Store, pharmacy, health food stores, bakery, coffee shops, liquor stores, nursery, pet stores, and so forth. Then, these people fall in love with our vibrant community and come back. Many even pursue real estate. However, if Valley Chainsaw and Blacks were located elsewhere these same people would not go out of their way to leave the highway. They are compelled to enter the downtown core because they need service from one of these two establishments – Blacks or Valley Chainsaw. These two shops are critical to the health of our economy.

Thus, in closing, I am very concerned about the preservation of our town identity, the adverse effect of the carbon footprint, and the loss of economic revenue if the zoning bylaws are not amended to accommodate the inclusion of Blacks Hot Wheels and Valley Chainsaw and Recreational Ltd as they operate now, in the Village core.

Sincerely,

Wilson Prewitt

PEMBERTON RATEPAYERS ASSOCIATION

VILLAGE OF PEMBERTON

7400 Prospect Street
PO Box 100
Pemberton, BC
V0N2L0

Attention: Mayor and Pemberton Council members

RE: Zoning Bylaw #832,2018

The newly formed Pemberton Ratepayers Association (PRA) would like to take this opportunity to formally introduce ourselves. The PRA membership includes both citizens and local businesses.

Our mission statement is as follows:

“To represent citizens and businesses as an established and respected association that carries considerable influence in the community. To ensure concerns regarding governmental actions or inactions effecting Pemberton citizens and businesses are effectively and respectfully brought to Village planners, Mayor, councils and where appropriate request transparency and accountability from local government.”

At this time the PRA has great concern regarding the zoning Bylaw # 832,2018 and formally request the following:

- I. Council cancels the public hearing and rescinds the readings of this Bylaw amendment based on the following:
 - a. The proposed Bylaw as presented will have a profoundly negative and deleterious impact on both the livelihoods of citizens and the business community at large.
 - b. The proposed Bylaw in itself is a very large, complex document and PRA feels strongly that there has not been adequate time given by the VOP to allow the public and the affected businesses to fully understand and provide comments or input on what impact this could have on them.

.../2

- c. The PRA suggests that there was a serious lack of consultation regarding this proposed Bylaw amendment.
- d. The PRA has great concerns regarding the lack of business representation on the ALUC.
- e. The PRA rejects this Bylaw and it's timing and respectfully asks the Mayor and Council to explain to our community why the Bylaw is being fast tracked and why such an unrealistic deadline was set for seeking input before the final reading.
- f. Recently the SLRD had a similar situation regarding their new Bylaw amendment and after hearing from the community they chose to hold a public information session that outlined in great detail all the proposed changes and are still in the consideration phase of their amendment. The PRA strongly feels that the Village should take the same approach to adequately address our above noted concerns.
- g. Once village businesses became aware of the proposed Bylaw on June 14th, 2018 a petition was published in both paper signature and online formats, Within 24 hours the petitions have received 1000+ signatures of support. This demonstrates a clear and very convincing show of support to have this Bylaw reconsidered by the VOP.
- h. If the village insists on following through or exploring the Bylaw further the PRA requests that an information report be circulated showing all of the proposed changes in a clear and concise manner, these should without exception be distributed to all local businesses that may be impacted in the Village boundary.
- i. Note that this is an election year and in a few short months there could be a new Mayor and Council that may have a different vision, one that reflects the interests of businesses and ratepayers of Pemberton.

PRA looks forward to working with the VOP in finding solutions to issues and others concerning the well being of the community.

The PRA respectfully asks for a prompt response to this letter due to the fast approaching date of the public hearing and the VOP imposed schedule to take this important matter to 3rd and 4th reading.

Regards,

Stephen Black
Spokesperson
Pemberton Rate Payers Association

June 18, 2018

Dear Mayor and Council:

My name is Tanya Niet and I am writing to express my concern regarding the proposed rezoning of the Automotive Repair Shop and the Equipment Servicing, Rental and Repair Shop.

Although it was stated at the May 29th, 2018 Council meeting and published in the recent release of the FAQ for Zoning Bylaw No. 832, 2018 that states that these businesses “would be able to continue operating as a lawful non-conforming use”, I still feel that it is a threat to their operations.

The reason I believe it is a threat to business as per usual in the aforementioned locations is because it was also noted in the minutes of the April 26th, 2018 Advisory Land Use Commission of the Village of Pemberton meeting that the rationale for the proposed rezoning, or “change of status”, of the Automotive Repair Shop and the Equipment Servicing, Rental and Repair Shop was “*in hopes that this may encourage them to move out of the Town Centre [to] make room for more pedestrian-oriented commercial (retail or office uses) that on the day to day public*”. Meanwhile, it was proposed that the Glass and Mirror Repair Shop and Gasoline Service Station “would be permitted to remain”.

Thus, I agree with the sentiment of the petition that has been circulating in that “an amendment be made to the bylaw draft to allow Valley Chainsaw and Recreational Ltd and Black’s Hot Wheels to remain in operation as per usual at their current locations”. In other words, I support an amendment to zone these two enterprises as site-specific permitted use in the same way that the Glass and Mirror Repair Shop and Gasoline Service Station have been granted in the proposal. I support the idea of a subject to Conditions of Use clause for both the Automotive Repair Shop and the Equipment Servicing, Rental and Repair Shop:

The Equipment Servicing, Rental and Repair Shop is only permitted on lands legally described as Lot 7, Block 2, Plan 1624, DL 203, LLD at the adoption of this Bylaw.

The Automotive Repair Shop is only permitted on lands legally described as (insert title information) at the adoption of this Bylaw.

It seems to me to be a fair and logical amendment, particularly as both of these establishments have been pillars of the community for many years. Furthermore, it seems to me that the people are in agreeance with this sentiment as the petition numbers have shown.

I appreciate your time and consideration in this serious and sensitive matter. Please do not hesitate to contact me for any clarification or further discussion.

Signed,

Tanya Niet

June 19, 2018

Dear Mayor, Council and VoP

My name is Chelsey Herechuk. I am sending this letter with concern regarding the new rezoning proposal, specifically regarding the lots where Valley Chainsaw & Recreational Ltd. and Black's Hot Wheels are located and operating.

The VoP posted a FAQ on Facebook about this proposal on June 15th, not long after I posted a petition on Facebook through Change.org. This petition has more signatures than I thought it was ever going to produce. Showing me that the local population are not in favour of this proposal. I believe that these locations should be rezoned as **site-specific**, as to not interfere with these businesses which have stood strong in downtown centre for many years.

I have quoted the FAQ below (see Note 1) where the VoP states that this rezoning is not targeting these businesses to leave, but in the draft for the Advisory Land use Commission the exact words used are **“hopes that this may encourage them to move out of the Town Centre.”** (see Note 2) The VoP has been replying to peoples comments on their Facebook post, but has not commented about that specific quote at all, even after being questioned about it. This comes across as though the VoP has no transparency with this issue for the general public, and as if they are trying to “cover there tracks” since it seems that document was not meant for the general public.

Note 1

Document URL:

<https://www.pemberton.ca/public/download/documents/50800>

Page 2

Is the Village targeting these businesses to push them out of town?

The Village is not targeting businesses. It is zoning land for the future based on its highest and best use. By removing these two site specific uses, the Village is attempting to implement certain objectives for Downtown outlined in the Official Community Plan, developed through extensive consultation with the Community in 2011.

Vancouver Coastal Health Authority (VCH) issues the Permit to Operate the water system and required that the Village prepare a groundwater protection plan (GPP) for their review as a condition of the Permit. The Village's GPP was prepared and recommends that the Village use developed planning tools (such as a Zoning Bylaw) to take specific precautions and eliminate the potential for contamination in the Village's Wellhead Protection Zone by transitioning this location to a low risk use. In addition, there are pedestrian and vehicular safety concerns with the operation of an Auto Repair Shop within the road and road right-of-way.

With respect to the Equipment Servicing, Rental and Repair Shop Use, the concern is the semi-industrial nature of this use, and the accompanying impacts of Outdoor Storage which is not a permitted use in the C-1 Zone.

The Village supports local businesses. In reviewing the Zoning Bylaw, the Village must balance the competing objectives of environmental and public safety

Note 2

Document URL:

<https://www.pemberton.ca/public/download/documents/49497>

Page 3, under C (Commercial) Zone

“...The rationale is to change the status of these semi-industrial uses to legal non-conforming, *hopes that this may encourage them to move out of the Town Centre* and make room for more pedestrian-oriented commercial (retail or office uses) that rely on the day to day public. These two (2) uses involve mechanical repair and associated outside storage and noise that is not conducive to a vibrant, walkable downtown where people want to both work and live. The other two (2) site specific permitted uses – Glass and Mirror Repair Shop and Gasoline Service Station, would be permitted to remain.”

I have attached a copy of the list of signatures from the online petition along with this letter.

Thank you for your time and consideration.

Signed,

Chelsey Herechuk

Valley Chainsaw & Recreational Ltd.

Albert Bush, Owner Operator
Valley Chainsaw and Recreational Ltd

V0N2L0

June 19, 2018

Mayor and Council
Village of Pemberton
7400 Prospect Street, Pemberton, BC, V0N 2L0

Dear Mayor and Council

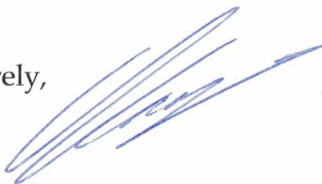

Please accept this as my formal correspondence regarding *Lot 7, Block 2, Plan 1624, DL 203 LLD* and the proposed change in status of this lot.

The proposed rezoning (Zoning Bylaw No. 832, 2018) to a lawful non-conforming designation has alarmed many of my suppliers with whom I have signed contracts, referred to as Dealer Agreements. These Agreements could be discontinued due to this proposed designation. The suppliers perceive the change in zoning as a risk. Of course, this clearly affects my ability to uphold my Agreements which in turn puts my entire business at risk.

Moreover, the proposed change in status of my business has affected a potential sale of both the land and business. The interested party has declined to continue negotiations upon learning of the potential of *Lot 7, Block 2, Plan 1624, DL 203 LLD* to be zoned lawful non-conforming. This is a clear example of how my business has been de-valued through this process.

I feel that a reasonable and fair solution would be to keep *Lot 7, Block 2, Plan 1624, DL 203 LLD* designated as **site-specific permitted use**, as it is now. Please understand that I am simply protecting myself, my business, and my livelihood by making this request.

Sincerely,

Albert Bush (Owner Operator) Valley Chainsaw and Recreational Ltd

June 19, 2018

To:

The Village of Pemberton
7400 Prospect St.
Pemberton, BC

Dear Mayor & Council,

I am writing to express my opposition to the proposed bylaw to change the zoning of Valley Chainsaw & Black's Hot Wheels.

The minutes of the ALCU meeting of April 26, 2018 state:

"C (Commercial) Zones:

Pedrini explained some of the proposed changes in the C Zones. It was noted that two (2) of the four (4) site specific uses in the C-1 (Town Centre) Commercial Zone: Automotive Repair Shop and Equipment Servicing, Rental and Repair Shop will no longer be listed as permitted.

The rationale is to change the status of these semi-industrial uses to legal non-conforming, in hopes that this may encourage them to move out of the Town Centre and make room for more pedestrian-oriented commercial (retail or office uses) that rely on the day to day public.

These two (2) uses involve mechanical repair and associated outside storage and noise that is not conducive to a vibrant, walkable downtown where people want to both work and live.

The other two (2) site specific permitted uses – Glass and Mirror Repair Shop and Gasoline Service Station, would be permitted to remain."

The reason for the change in zoning is stated clearly here as a means to push these two businesses out of the town center. There is no mention of the water and safety issues that are now being sold as partial reasons for the change. I suspect because there really are none. If the Village is really worried about children potentially walking by a logging truck that's getting a tire changed, they should permanently block off the path the kids take over the train tracks which lead them in that direction. If it's worries about the water, why is the Gas Station not being rezoned as well? Or is that coming in the future? If there are complaints of noise and storage, why not use the bylaws that are already in place to deal with them?

I can't even conceive that the Village would single out two long standing businesses whose contributions to Pemberton are so numerous and varied. Their locations in the town center are vital to the working people and businesses of our community. The amount of traffic these businesses bring in to the town center cannot be understated. Valley Chainsaw is listed as "Equipment Servicing, Rental and Repair Shop" but as a former long-term employee, I'd hazard a guess that they sell more retail than half of all the stores in town combined. Not to mention the spin-off sales at other retailers in town because of their location.

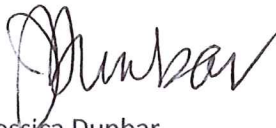

The FAQ on the Village website answers the question of whether these businesses are being targeted by stating "The Village is not targeting businesses. It is zoning land for the future based on its highest and best use. By removing these two site specific uses, the Village is attempting to implement certain objectives for Downtown outlined in the Official Community Plan, developed through extensive consultation with the Community in 2011."

I would suggest that the land these businesses use are ALREADY being used to their highest and best use. Zoning for some unknown future use, with no mention of what that might be, does not make any sense. If these businesses are not being directly targeted (as you'd think per the ALCU meeting of April 26th) then just leave the zoning as/is.

2011 was seven years ago, and, as evidenced by the ever-changing and often empty retail spaces in town, it looks like the "certain objectives" the Village is trying to implement haven't exactly panned out. Luckily for us, there are still long time businesses such as Valley Chainsaw & Black's Hot Wheels to help carry the town center through tough times.

I strongly urge you all to put this portion of the proposed bylaw to rest and leave the zoning for Valley Chainsaw and Black's Hot Wheels as it is.

Sincerely,

Jessica Dunbar

Dear Mayor and Council:

I wanted to let my views be known regarding the proposed rezoning of Valley Chainsaw and Black's Hot Wheels. I heard that these businesses may not remain zoned as site-specific permitted use. I heard that this means they can stay in operation but that they cannot make changes or upgrades to improve their businesses. I also heard that this rezoning was suggested so that Valley Chainsaw and Black's would hopefully feel inclined to move out to the Industrial Park.

This seems crazy to me because both places create economy. Black's keeps a lot of business in town. Black's is the first choice for many people because of the convenience of dropping your vehicle off while it is being serviced. We can do errands or walk to work while the vehicle is being serviced and pick it up when it is done. This is a greener option than driving out to the Industrial Park and having to either wait there (and therefore not spending any money in the village while we wait) or find a ride back to town. And back out, and then drive home again. That is a lot of unnecessary exhaust fumes.

Meanwhile, Valley Chainsaw draws business to the downtown core. He offers retail opportunity and valuable tourist information about the local backcountry trails. Valley Chainsaw promotes tourism and local businesses in a huge way. The snowmobilers, skiers, snowboarders, dirt bikers, and recreational vehicle enthusiasts all know where Valley Chainsaw is and come into town especially to see Albert. If he was elsewhere or closed down they would skip Pemberton and go straight to their destination. These people spend TONNES of money in our town. And they buy real estate too. Many of Al's customers are wealthy people who have money to spend and love the human interaction with a true local in this special town. Valley Chainsaw is the epitome of the real Pemberton.

So limiting Valley Chainsaw and Black's Hot Wheels by changing the bylaw as proposed seems counterproductive to me. I think it would be in the town's best interest to grant both these businesses the site-specific permitted use designation. It makes the most sense for the present and the future of our community.

Thank you for your time.

Sincerely,

Andrew Martorana

Message to Mayor & Council: I feel that the proposed rezoning of Blacks and Valley Chainsaw is very misguided. We've been told that these businesses are noisy and unsightly and are not conducive to a vibrant walkable downtown, and they will be encouraged to relocate out of town. I suggest businesses like this are part of the core of what makes Pemberton vibrant and "walkable!" These businesses add to the diverse nature of Pemberton's downtown, making it possible for patrons to combine trips to various different shops at once to make for an efficient and pleasant shopping experience. It's quite common for residents to drop off a vehicle at Blacks for service and walk to a nearby restaurant for lunch or a coffee. Or to park their car and walk to Valley Chainsaw to pick up some oil while also walking to the grocery store or running other errands. The combination and diversity of all the businesses in downtown Pemberton is one of the things that make it so great- people can get hardware, gas, automotive help, groceries, chainsaw/recreational needs, liquor, pharmacy and go to lunch all within one destination. Are they noisy and unsightly? Perhaps to some, but neither of these businesses operate late at night, making noise and their "unsightly" appearance is absolutely subjective. Many people find industrial activity more interesting than unsightly. As someone else said "Since when did the sights and sounds of people making an honest living become distasteful and undesirable in a commercial town center?" Every downtown area in every town has noise in it during the daytime, and even if these businesses were gone we would still have logging trucks, dump trucks and other traffic noise going through town, making noise. Rather than encouraging viable, successful businesses to leave town, perhaps we should encourage those who want a quieter environment to choose a residence in a quieter neighborhood? It's obvious by the opposition to this proposal that many residents are not in favor of it, what about tourists? Do tourists want a more sterile Pemberton to wander around? I deal with tourists from all over the world every day, and I would say absolutely not! Tourists are fascinated by many of these "rugged Canadian" things, they love to see and do any activity that connects them to this aspect of Canada and

Pemberton. Suggesting these businesses have no place in Pemberton's downtown is really missing the mark about what draws people -residents and tourists alike- to Pemberton.

Message to Mayor & Council: Re: Rezoning bylaw I personally find this new Zoning bylaw which is targeting two long term business owners to be in bad taste. They are both staples of pemberton and have contributed more to the community and the town itself then almost any other business. While I appreciate that being legally non conforming will allow them to still do business. The fact that the documents coming from The advisory landuse committee which seems to be driven by staff and used as justification for these bylaws is in extremely poor taste. Most of the Pemberton residents I know do not want to build towards a whistler style walking village and our community is in fact already extremely walkable. Both of these businesses should be zoned for their existing uses without question. The zoning changes proposed solves none of the issues the village is putting forward and makes it harder for the village to deal with any of These issues with the current business owners as this process has created a ton of animosity. There are simple ways to protect the community aquifer which could have been achieved simply by working with the owners of blacks.(if you need these ideas spelled out for you feel free to ask) Trying to address these issues in the future will now be much more difficult. If Pemberton wants to be open for business don't create more red tape for these businesses to navigate in the future, zone them for their uses and work on rebuilding the relationships this process has damaged. Pemberton needs to remember what It is and the people Who built it while managing its growth. These two businesses are not impeding that and have helped it come along. Snowmobiling is one of our biggest economic drivers in the winter months and everyone who comes into town for the shop spends money everywhere else. Blacks provides a venue where people can have their summer and winter tires changed or their vehicle serviced while they run other errands. These are assets plain and simple to the landscape of this community.

Message to Mayor & Council: To the Mayor and Council, I am writing today to respectfully express my concern and absence of support for Zoning proposal bylaw No.832. I'll address the concerns I have surrounding this proposal; my main concern lies in the fact that there has been little to no actual transparency surrounding the motive for adopting this bylaw. When I read through the FAQ page, the Mayor's Facebook responses and the proposal it stated that the intention was in fact to NOT encourage the effected businesses out of town, rather to support them in continued operation. When I read the ALUC agenda it directly contradicted the written words of Mayor and council in stating "The rationale is to change the status of these semi-industrial use to legal non-conforming, in hopes that this may encourage them to move out of the Town Centre and make room for more pedestrian-oriented commercial (retail or office uses) that rely on day to day public. In my opinion, this is translating to me and to other voters and taxpayers in Pemberton that our elected body is working an angle behind the scenes to accomplish an agenda within the local government while telling us something else to avoid public opinion. The VOP has effectively deflected questions of substance regarding this issue while just refusing to answer others in public forums where we were encouraged to ask questions. I'm interested to know what the "but" is. -Does this proposed change affect land use? IE: would it hamper the businesses ability to store, park, display product and vehicles outside of the buildings? -Would there be new bylaws put in place in which the business owners could be fined for, at this time, unknown, non compliance's? Or are there existing bylaws for current "legal Non conforming" that could tell us what the actual changes would be? -What would be the immediate changes benefiting the VOP? Because as written, it looks as though there are no current changes but this bylaw wouldn't be proposed if there wasn't something more immediate that the Village is looking to accomplish. -These businesses could continue to run for the next 30 years, wouldn't that render this bylaw therefore irrelevant? -Would this bylaw would give the VOP more power to make changes in how these businesses are currently

operating? ie: by changing land use and restricting these businesses abilities to operate, in theory if the ability of the business to operate is greatly affected isn't that essentially "pushing them out"? This proposed bylaw is already having negative impacts on the effected businesses and permanent Pemberton residents like me. I am feeling disappointed and greatly concerned that the direction the VOP is taking will put actual people out of work and long time entrepreneurs out of business, if the goal is to "encourage them to move out of the town centre" as written and impact to the farming communities, local industries that rely on these businesses. I understand the argument is "but they can operate grandfathered in" but we all know this is not what the actual goal is after reading the ALUC agenda, we know that these businesses will be "squeezed" until they have no other option than to close down or relocate, it is our job to "look forward" after all. I am concerned that my government is valuing an idea that caters to the tourists/guests/passers throughs over the people who live and thrive here, we vote here, we pay taxes here and we support each other through thick and thin here and while I see the importance of tourism for our economy and revitalizing a growing town, it is not the most important thing and balance needs to be found through respectful solutions not bullying businesses out. Sometimes people have to come first even if they stand in the way of our vision for things, people before profit. Maybe we alter that vision to benefit everyone, some nice siding and solid fencing can do wonders for curb appeal, if the VOP would approve it. We banded together through flooding, through fire through everything, these businesses have been integral in assisting the needs of our people in crisis, providing sumps pumps, generators, transportation, maintenance of service vehicles etc at a moments notice and after hours. These are the types of businesses that also support the industry around us that is home to more local jobs. This does not only affect these business, there will be a ripple effect of how this is going to impact our community if these businesses are to be pushed out or "encouraged out" It would take massive cost, time, overhead etc into moving these small, family owned businesses to another location far away from the town centre and these are not corporations with vast amounts of money to just up and relocate. The most likely outcome would be to close or try and sell something that is vastly restricted which would deflect financers, investors, suppliers etc which impedes the owners ability to even sell out of the business at a profit that would reflect the years and years of continued service to the Village of Pemberton, the SLRD, the ALR, MT Currie and beyond. I was born and raised in this corridor, as were my parents before me, I chose to work in health care to care for those in my community and I voted in people I thought had the same values and directives. I am a proud taxpayer and voter and I want to clarify that just because I don't support this proposed bylaw does not mean I don't support the Village and my local government, I just don't want the vision of "what could be" to overshadow and become priority over the people who got us there, our backbone, our small family businesses that have been a benchmark for integrity, service and represent a culture in our community. I don't want this to become "Us" against "you" i want it to be about "all of us together building a successful Pemberton" In concerning times like these we need our local government more than ever to show us that our voices are important and valued. I look forward to seeing how this is handled and hope that I can be of support to the people of my community for many years to come!

Respectfully Natalie Livermore

Betty Mercer

June 19, 2018

Dear Mayor and Council:

I am writing to voice my concerns about the new bylaws proposed for the Village of Pemberton.

I have lived within the village since 1961 and have seen businesses come and go throughout the years. Upon reflection, I realized that the tire shop and the chainsaw shop have been two constants in carrying our community economically for the last forty plus years. Furthermore, Valley Chainsaw has been my closest neighbour for over thirty years and I have never had a problem with the business being there.

Both the chainsaw shop and the tire shop have consistently provided services that are a necessity to our town. I think that these types of services are what we need in the town core so that it is convenient for the residents of the village and outlying areas. Convenience and location are key for any business to thrive.

I respect and welcome the growth that is inevitable in our community. However, I think we first need to cater to the people who live here. We have always relied on and accepted one another, so in our future planning, I think we need to allow for these types of businesses in the town core because they service our community, not only from day to day, but through natural disasters such as floods and fires, as well. Thus, they need to be able to expand and rebuild without restrictions and limitations placed on them.

The zoning could be re-addressed as the needs of the town change. However, at this time I believe that our town needs both of these establishments in the town core and so we should be encouraging both Black's and Valley Chainsaw to grow, expand, and rebuild if they choose to do so. I might also suggest that we look at these businesses in appreciation for the essential services that they have and continue to provide us.

I suppose the best way to remedy this situation may be to allow Black's and Valley Chainsaw to remain zoned as they are now and build sidewalks across from the Hardware store on Prospect Street to address safety concerns regarding pedestrians having to move around parked logging trucks. This will provide better options for us to stay safe in that area of town.

Betty Mercer

June 20th, 2018

To Mayor, Council, and Village of Pemberton

Please find copies of a petition against the proposal of rezoning bylaw 832. These were located at Valley Chainsaw & Recreational Ltd, Black's Hot Wheels, Napa, Rona, Blackbird Bakery, and the Pemberton Veterinary Hospital. These are copies and the petition will remain at these locations to collect more signatures up until the day of the meeting, June 26th, 2018.

Thank you for your time and consideration

Signed,

Chelsey Herechuk

Pemberton BC

Valley Chainsaw
June 20/18

**Please help keep local businesses
local.**

**Say NO to the Village of Pemberton's
proposal to rezone Valley Chainsaw
Recreational Ltd and Black's Hot Wheels
out of business.**

Proposed Village Bylaw #832, 2018 prohibits these businesses
from operating as per usual after 40 years in the same well known
location.

Valley Chainsaw and Black's Hot Wheels are uniquely Pemberton, nowhere else can you shop for your groceries, do your banking, pick up your mail, browse the downtown stores, grab lunch at a downtown café and at the same time bring your recreational vehicle, lawnmower, or automobile in for servicing.

In downtown Pemberton, we truly have one stop shopping - you drive into the core, park your car, and take care of all your business in one go. If you don't need to get the car out, most of the community is within walking, cycling, or even a horse ride away from town. This is, of course, what makes the town so vibrant.

Furthermore, with everything in one location, fewer cars are on the road and that means a more sustainable environment with less traffic on the highway driving multiple kilometers around the valley to run a few errands that you can do right now, right here in Downtown Pemberton.

This is our rural pioneer heritage and reflects our community values from old times to now. We jeopardize our community identity, our culture, our heritage, and our downtown commerce when we abandon our community vision by selectively choosing which businesses to keep and which to discard by simply re-zoning them out of existence. The proposed Village Zoning Bylaw does just that - it will cost us our uniquely pioneer heritage with disregard for the past, present, and future.

Please sign your name below if you agree to keeping local businesses local, and in the historic downtown Pemberton.

You can also
contact your local elected Village Mayor and Councillors
to voice your concerns.

Mayor:
Mike Richman

Councillors:
James Linklater
Jennie Helmer
Karen Ross
Ted Craddock

Message to Mayor & Council: To Mayor and Council, I am writing this email to express my absolute support for the Village effort to enhance the downtown core of Pemberton (long overdue) and to ensure the safety of our shared aquifer (with absolute importance) and pedestrians (also critical). I have witnessed and participated in the tremendous amount of public engagement and consultation over many years to build the local vision improve the health and livability of our village, and give full hearted endorsement for the work to proceed. Besides the due process that has been held and honoured throughout the process to create a community-driven vision, I see the Mayor and Council as being accountable to uphold this vision and drive the forward movement for this vision/ commitment to proceed. This isn't about businesses that are inherently and obviously self-interested-- we must rise above the short sightedness of this limited thinking. This is about championing the health and wellness of the next and 7 generations to come. By continuing ahead, you: 1. protect our limited and precious water supply adjacent to current business activities with inherent risks to that very water supply (an unacceptable situation by all public health standards and flagged by our health authority) and 2. ensure not just 'livable' but healthy space for our growing children and habitants to enjoy and move freely in healthy patterns rather than avoiding unsightly/loud noises and almost industrial activity in livable neighbourhoods, and 3. Improve the overall welcoming nature of our little town that may have been resource dependent and tiny 30 years ago; but is rapidly shifting in its demographics to optimize a livable downtown space for the collective well-being. It is unreasonable and unfair to put the interests of 2 businesses (which in no practical way are compromised by the new zoning bylaw anyway) ahead of a collective process and a healthy and livable downtown core-- and I urge you to continue with your well executed plan to date that DOES reflect the silent majority. I am a 20 year resident, mother, tax payer, and professional remote worker with strong ties and loyalties in/to this town and view the proposed bylaw as a win-win for all. Thank you for considering this email and for your courage and strength to do what is right for the majority (and generations to come) and not move from fear/reactivity to appease 2 business owners (who can continue to serve their many happy customers—including me—without disruption).

In Wellness, Allison Twiss,

Bylaw 832

June 20, 2018

Dear Mayor and Council,

The proposed rezoning of Valley Chainsaw and Black's Hot Wheels Tire Shop and special provision given to three other businesses (AC Petroleum, the glass shop and a fitness organization) have just been brought to my attention. My first reaction is that the Village of Pemberton is again picking and choosing who and what they want in their boundaries like they did with their previous village expansion. Only when the village wanted the revenue from the IPPs did they realize that perhaps they should have consulted and included others in their process a long time ago. I am once again disappointed in the way mayor and council are working contrary to their desire for transparency, community, shopping locally and green initiatives.

Essentially, this is a small village, not even a town or city. A village is a place where everyone is welcome and you are able to truly do a one stop shop. When you drop off your lawn mower or get your tires changed and are waiting, you can get your groceries, check your mail and then because you have extra time even go for lunch or for coffee. I like having these services, even semi industrial ones, in the village because I interact with other people from my community especially those from other sectors and Area C residents. By gentrifying this small village, you risk losing many community interactions.

I think that when the lives of these businesses are faced with arbitrary restrictions, permits and laws, such as the option for expansion, resale limitations, and laws that prohibit rebuilding in the event of fire or flooding, their value and inclusion as a viable part of the downtown core is undermined. Also part of the historic character of Pemberton would be eroded. Valley Chainsaw, Black's Hot Wheels and Mountain Glass are 3 of the oldest buildings in the "downtown" core. If we lose them part of the historic Pemberton walking tour is removed. Added could be 3 more cinder block "city-like" buildings that do not add to Pemberton's quaint diversity.

If I am relegated to going to the industrial park for any services, I am becoming less green and adding to my "out of Pemberton" shopping list. My business and extra time are no longer in the village of Pemberton. It becomes considerably easier to go to Canadian Tire or Walmart for everything I need and there is a greater selection of restaurants for my meal. Ironically, my community interactions are also increased because I meet so many people from this village and Area C who choose not to shop locally. Also by accessing services in the industrial park, my

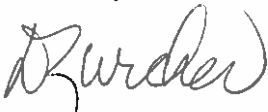

carbon footprint is substantially increased and my village interactions are equally decreased. Having semi industrial services in the village of Pemberton concretely supports farms and small agricultural operations that would fall under the village's jurisdiction if a boundary expansion was ever supported. Knowing that Tourism Pemberton advertises as a rural community (sheep named BB King and horses sauntering through town) with unique businesses, I assume all kinds of commerce would be openly welcomed into the downtown area..

If the services provided by Black's and Valley Chainsaw were not available and convenient, it would be interesting to see how many outdoor enthusiasts and off-road adventurers would not stop in the village of Pemberton. They would become another statistic that is prevalent across BC for small towns located in recreational or holiday areas. Get your supplies at Costco or in the city before you leave and never set foot in the local shops and community.

I was just in 100 Mile House and was astounded shop at the variety of the available goods and services in the shops. I was impressed with a range of services within a 1 or 2 kilometer strip, a sense of welcome, a diversity of buildings and the "community" feel even though I did not know a single person. I see why people are leaving Pemberton. Land value is not the only driving force. Convenient diversity within a community that is welcoming to locals and visitors is of equal or higher value.

I look forward to being part of the continued diversity in this ever changing community.

Sincerely,

Doris Zurcher
