## **PURPOSE**

The purpose of this report is to seek Council support for an application to UBCM's Community Emergency Preparedness Fund, Indigenous Cultural Safety & Cultural Humility Training Program.

## **BACKGROUND**

In 2015, Council identified the development of the Lil'wat Nation Fire Service Agreement as a Strategic Corporate Priority. As such, in partnership with the Lil'wat Nation, the Village applied to the Federation of Canadian Municipalities' Community Infrastructure Partnership Program (CIPP) to assist with the drafting of the Fire Services Agreement. The CIPP provided resources and support to build and strengthen our relationship with Lil'wat Nation while developing a mutually beneficial agreement that serves both communities.

This work also dove-tailed on the Community-to-Community Forum held in March 2017 with representation from the Village, Lil'wat Nation, Lower Stl'atl'imx Tribal Council, N'Quatqua, Samahquam and Squamish-Lillooet Regional District. The Gathering was designed to strengthen relationships, share information, and explore the meaning of reconciliation. As a result of this Forum, the Nukw7ántwał Regional Gathering Final Report (see **Appendix A**) was created to capture the discussions, as well as provide next steps and recommendations to advance regional reconciliation efforts. Through this process, several opportunities were identified to advance relationship building within the region. These included:

- Personal commitment to reconciliation;
- Increasing knowledge about Southern Stl'atl'imx – the people, culture, history and present realities;
- Creating opportunities for intergovernmental communication and collaboration; and,
- Improving community connections.

Participants also emphasized the importance of developing a deeper understanding of colonization in Canada and its impact within the Southern Stl'atl'imx region and people.

The Report also presented four recommendations to ensure discussions and actions continued beyond the Community to Community Forum:

1. The Council/Board of each participating organization receive the Gathering Report and commit to moving forward with reconciliation by way of a Council/Board resolution

- allocating the staff resources needed to keep the Nukw7ántwaí Regional Gathering Organizing Committee intact to lead the development of recommendations 2-4.
2. Convene a leadership meeting to draft a formal joint declaration on reconciliation that all governments in the Southern Stl'atli'mx region are invited to sign.
  3. Create a standing Nukw7ántwaí Intergovernmental Relations Committee to strengthen relationships, improve communication and foster regional collaboration; including a commitment of resources to support the committee.
  4. Convene a meeting to discuss the future of Winds of Change, including the possibility of changing it into a regional citizen-based reconciliation initiative. Consider changing the name and reframing the terms of reference so that the committee mandate is to increase knowledge and awareness, to facilitate local dialogue, and to inspire individual commitment to reconciliation.

At Regular Council Meeting no. 1448, held on May 2, 2017, Council made the following resolutions:

*Moved/Seconded*

*THAT Council receive the Nukw7ántwaí Regional Gathering Final Report for information;*

**AND THAT** *the Council supports in principle the recommendations in the Nukw7ántwaí Regional Gathering Report and Recommendations Report.*

**AND THAT** *staff work with the SLRD to confirm the interest and support of the Gathering Participants on the recommendations from the Gathering Report.*

**CARRIED**

At the subsequent Regional Gathering held in February 2018, further discussion took place with respect to the establishment of a Nukw7ántwaí Intergovernmental Committee (NIC) and the creation of draft Terms of Reference (TOR). A small-group workshop was undertaken to develop a vision, values for the Committee, in addition to establishing priorities for 2018/2019. The formation of the Committee received strong support from the Elected Officials, and Staff were given direction to proceed with the formation of the Committee and finalize the TOR.

In September 2018, Village Council formally endorsed the TOR at the Regular Council Meeting 1476 on September 4, 2018:

*Moved/Seconded*

**THAT** *the Nukw7ántwaí Intergovernmental Relations Committee Terms of Reference be approved as presented.*

**CARRIED**

Please see **Appendix B** for the Nukw7ántwaí Intergovernmental Relations Committee Terms of Reference.

The Village has provided formal and informal learning opportunities for Council and Staff with respect to our colonial history and residential schools. In December 2015, representatives from Lil'wat Nation, Mr. Johnny Jones, Cultural Technician, Harriet Van Wart, Director of Lands and Resources, and Lucinda Phillips, former Chief attended the Committee of the Whole to provide a history of BC First Nation Traditional Territories. In February 2016, Mr. Frank Wallace and Ms, Martina Pierre, Elders from Lil'wat Nation, attended the Committee of the Whole to share their

personal experiences attending residential school, the intergenerational effects on their community and the loss of language, culture and practices.

In 2017, the Village provided cultural competency training for Staff and Council, in partnership with the Squamish-Lillooet Regional District. Two opportunities were provided to take the *Building Bridges Through Understanding the Village* experiential workshop, led by Kathi Camilleri in May 2017 and September 2017. This experiential workshop took the participants through history from pre-contact to current day, exploring the past and current effects of residential schools and colonization. The workshop was well received and invoked a desire for deeper learning and relationship building.

The Village continues seek learning opportunities through presentations to Committee of the Whole and Council. Most recently, Staff worked with Lil'wat Councillor Helena Edmonds, Lil'wat Youth and Pemberton Secondary School on organizing an experiential history lesson for students in conjunction with Orange Shirt Day.

### **DISCUSSION & COMMENTS**

Given the work being done by the Nukw7ántwaí Intergovernmental Relations Committee and the regionally significant projects we are collaboratively working on with Lil'wat Nation, including transit, emergency management and the 2019 Community-to-Community Forum, this training is critical for building trust and enhancing our relationships with our Indigenous neighbours while collaboratively addressing regional issues.

Since 2017, the Village has had several new Staff and Council join the organization as well as new recruits joining the Fire Department. Given the significant regional projects being undertaken in partnership with Lil'wat Nation and neighbouring Indigenous communities, Staff is recommending that cultural competency training be provided for new Council, Staff and Fire Department Recruits.

Although the funding is specific to emergency management personnel, including Emergency Operations Centre Staff and Firefighters, Council and non-emergency management Staff will have the opportunity to partake in the training.

### **COMMUNICATIONS**

This initiative does not require a communications element at this time.

### **LEGAL CONSIDERATIONS**

There are no legal, legislative or regulatory considerations at this time.

### **IMPACT ON BUDGET & STAFFING**

UBCM's Indigenous Cultural Safety and Cultural Humility Training funding program covers 100% of the project expenses, up to \$25,000. Therefore, the Village is not required to provide matching funds. Indigenous Relations falls under the Office of the CAO, and this initiative can be accommodated in the Sr. Communications and Grants Coordinator's day-to-day tasks.

### **INTERDEPARTMENTAL IMPACT & APPROVAL**

Pemberton Fire Rescue has reviewed this report and is supportive of the funding application to UBCM's Indigenous Cultural Safety and Cultural Humility Training project and the subsequent training.

|--------------------------------|--|
| Interdepartmental Approval by: | Robert Grossman, Fire Chief, Pemberton Fire Rescue |
|--------------------------------|--|

### **IMPACT ON THE REGION OR NEIGHBOURING JURISDICTIONS**

Although this initiative does not have a direct impact on neighbouring jurisdictions, it will enhance the Village's relations with our Indigenous and regional neighbours and set an example for our community-at-large.

### **ALTERNATIVE OPTIONS**

There are no alternative options for consideration.

### **POTENTIAL GOVERNANCE CONSIDERATIONS**

This initiative aligns with the Strategic Priority of *Social Responsibility* whereby the Village strives to create a strong and vibrant community, recognizing the importance and benefits of healthy, engaged citizens.

### **RECOMMENDATIONS**

**THAT** an application to UBCM's Community Emergency Preparedness Fund, Indigenous Cultural Safety & Cultural Humility Training Program for up to \$25,000 for the purposes of providing essential cultural competency training for the Village of Pemberton's Emergency Management Personnel.

## PART 1 - BACKGROUND

On March 1<sup>st</sup> and 2<sup>nd</sup> 2017 the Nu'kw7ántwał Regional Gathering was held at Úllus Community Complex in Mount Currie with participation from Líl'wat Nation, Lower Stl'at'l'imx Tribal Council, N'Quatqua, Samahquam, Squamish-Lillooet Regional District (SLRD), and the Village of Pemberton.

Nu'kw7ántwał is the Southern Stl'at'l'imx ucwalmictwts phrase which means "To help each other." The two-day Gathering was part of an on-going effort to strengthen relationships between neighboring communities in the Southern Stl'at'l'imx region.

The Gathering began with a welcome by Líl'wat Nation Cultural Chief Táya (Leonard Andrew). Following dinner, there was a keynote address by Satsan (Herb George). Satsan is a respected Indigenous leader and intellectual. His presentation on different perspectives of reconciliation set the stage for participants to enter into discussion on day two.

The second day of the Gathering was designed to allow participants ample opportunity to work in small groups, exchange ideas, learn about each other's organizations and communities, and begin to develop a shared understanding of what reconciliation could look like in this region. Working sessions were fast paced, interactive and included many light-hearted and fun exchanges as well as some honest and more difficult conversations.

Thirty-seven participants attended some portion of the Gathering. Feedback from participant evaluation forms was overwhelmingly positive. This reflected the

genuine interest of participants to learn together about reconciliation. As one participant remarked, the day had a “new and different energy”.

*“I got to know and like people. It was a time of truly open minds and hearts. A privilege.”*

Much of the discussion on day two of the Gathering was how the group could capture the positive spirit of the day and use it as a springboard to positive collective action. This is the focus of the remaining sections of this report.

The Gathering was supported financially by the Regional Community to Community Forum (C2C) Program and the Squamish-Lillooet Regional District, with support from the Líl’wat Nation which sponsored the keynote speaker. Planning and coordination for the Gathering was done by an Organizing Committee that included:

- Ernest Armann, Líl’wat Nation
- Sheldon Dowsell, Lower Stl’atl’imx Tribal Council
- Vaughan Gabriel, N’Quatqua
- Jeannette Nadon, Squamish-Lillooet Regional District
- Jill Brooksbank, Village of Pemberton

The forum was facilitated by Sheldon Tétreault.

## **PART 2 - DISCUSSION**

The Village of Pemberton and the Líl’wat Nation have hosted a number of C2C forums and joint Council meetings over the past decade. For its part, the SLRD has also had some positive interactions with various Southern Stl’atl’imx community representatives. These efforts have resulted in collaboration on projects of mutual interest like the Lillooet River Corridor Engineering Study, Lillooet River Flood Plain Mapping and Risk Assessment, Mount Currie – Pemberton Friendship Trail, Riverside Wetlands/Ském’em Community Park Management Planning, recreation services planning, transit funding, economic development planning, emergency management and advocacy, and Winds of Change.

Despite these examples, there continues to be a perception of barriers preventing the respective governments (and communities) from realizing the power of a healthy and fully functional relationship. Furthermore, these collaborative efforts have not included the other Southern Stl’atl’imx First Nations.

Over a similar period, the Truth and Reconciliation Commission of Canada was investigating and documenting Indian Residential Schools. On June 2<sup>nd</sup>, 2015, the Truth and Reconciliation Commission released its final report and issued 94 “Calls to Action”. While the majority of the Calls to Action are directed to the federal or

provincial governments, there are a number of the Calls to Action that speak directly to local government. In light of this, in September 2016, the SLRD resolved to become a “Regional District of Reconciliation”. The Nukw7ántwał Gathering on March 1<sup>st</sup> and 2<sup>nd</sup> therefore was an invitation to local and First Nation governments to explore the meaning of reconciliation in the region. As a result, the first question posed to participants at the Gathering was “What does reconciliation mean to you?”

Over the course of the Gathering, participants came to realize that reconciliation can mean different things to different people. Nonetheless, there was a common sentiment at the Gathering, that reconciliation requires understanding, recognition, and respect. Through discussion, participants shared that understanding, recognition, and respect means:

- Acknowledging that our governments and the people we represent are in a relationship;
- Taking responsibility for our individual role in reconciliation and making a commitment to personal action;
- Understanding and acknowledging the local (and on-going) nature of colonization and its impacts;
- Recognizing that Aboriginal title and the inherent right of self-government exist in our region - even if they are not fully realized yet;
- Understanding and acknowledging differences between each community;
- Overcoming stereotypes of each other by learning about each community’s history, culture and values;
- Building trust;
- Having regular opportunities to improve communication and the potential for collaboration at personal, community, and government-to-government levels; and,
- Finding practical steps that can lead to improved socio-economic outcomes.

Based on this preliminary discussion, participants then explored opportunities for reconciliation in the region. There were many examples given. Most of the examples relate to four broad, sometimes overlapping themes:

- Personal commitment to reconciliation;
- Increasing knowledge about Southern Stl’atl’imx – the people, culture, history and present realities;
- Creating opportunities for intergovernmental communication and collaboration; and,
- Improving community connections.

Many participants recognized that reconciliation has to begin with a personal commitment. This is something that every individual must do on their own. However, governments have a unique leadership role and can use their public position to put the spotlight on important values, including reconciliation. When

they do this, governments are leading by example and encouraging others to make a similar commitment to reconciliation. For example, it would be a very powerful statement for all of the governments represented at the Nukw7ántwał Regional Gathering to sign a declaration signifying their commitment to reconciliation.

Further to an expressed commitment to reconciliation, participants at the Gathering also emphasized the importance of developing a deeper understanding of colonization in Canada and its impact within the Southern Stl'atl'imx region.

Suggested learning opportunities included:

- Facilitated tours of local communities;
- Presentations on how local governments operate vs. how First Nation governments operate;
- Local speakers on relevant topics like residential schools, Aboriginal law, Stl'atl'imx land use, etc.;
- Language classes to learn ucwalmictwts;
- Joint council meetings hosted in each of the communities;
- Elected official exchanges;
- On-line courses about reconciliation;
- Engaging regular citizens in regional forums similar to the Nukw7ántwał Regional Gathering;
- Reconciliation discussion groups; and,
- Orientations for newly elected officials.

To be effective, opportunities to learn about colonization and the Southern Stl'atl'imx people need to be tailored to different audiences. For example, learning opportunities for elected officials and staff might be different from learning opportunities for community members; youth may need different opportunities than adults; etc. Regardless of how the learning is delivered, the objective must be to increase knowledge and awareness, to facilitate local dialogue, and to inspire individual commitment to reconciliation.

Closely linked to increased knowledge of Indigenous people and history in our region is the objective of increasing opportunities for meaningful connection: at the government-to-government level and at the citizen-to-citizen level.

First Nations governments are different from local governments. They have different sources of authority, their scope of jurisdiction is different, they have different means of raising revenues, and the scope of services provided to citizens is different. Having said that, there are some areas of overlap and some areas of mutual interest where local governments can collaborate with First Nations governments. On these matters, government-to-government collaboration could be beneficial. Disaster response is a clear example. A catastrophic earthquake for example, will not respect community boundaries and will require the coordination

of all available resources to save lives. Participants at the Gathering considered intergovernmental collaboration and suggested the following:

- Coordinating emergency preparedness;
- Regional economic development planning;
- Collaborative advocacy and lobbying for regional interests;
- Advocating to change the names of major landmarks from colonial namesakes to include ucwalmictwts words (e.g. Mount Currie Mountain to Ts'zil Mountain);
- Promoting the use of ucwalmictwts in government business and communication;
- Identification of joint projects of mutual interest;
- Investigating the potential for joint services;
- Convening intergovernmental issues-based forums;
- Regular information sharing; and,
- Processes to resolve issues or conflicts.

Finally, there were many suggestions for reconciliation to be supported by strengthening personal relationships between Indigenous and non-Indigenous people at the community level. Participants want to see more community connections with the objective of building trust and friendship at a citizen-to-citizen level. Suggestions included:

- Cross-cultural celebrations and gatherings;
- Friendly sporting events;
- Hiking trips to visit Stl'atl'imx cultural areas or archeological sites;
- Food celebrations;
- Ucwalmictwts language classes;
- Jointly sponsored celebrations like National Aboriginal Day and Canada Day; and,
- Jointly sponsored commemorations like Orange Shirt Day.

To recap, participants at the Nukw7ántwaí Regional Gathering believe that reconciliation is a product of understanding, recognition and respect. They generated many practical examples of what reconciliation can look like. They also identified many opportunities for reconciliation in this region spanning four broad, sometimes overlapping themes:

- Personal commitment to reconciliation;
- Increasing knowledge about Southern Stl'atl'imx people and history;
- Creating opportunities for intergovernmental communication and collaboration; and,
- Improving community connections.

These ideas and suggestions embodied a spirit of good will that all participants wanted to see continue beyond this particular Gathering.

However, for all of the good will demonstrated at the Nu'kw7ántwa' Regional Gathering, participants recognized that reconciliation will not be easy. Practically, the most significant barrier to progress will be the lack of resources (i.e. time and money) needed to enable reconciliation activities. For example, the Nu'kw7ántwa' Regional Gathering was made possible by a \$5,000 Regional Community to Community Forum Program grant with funds contributed by the SLRD for the remaining approximate 2/3 of the cost of the Gathering. Without this funding, the Gathering may not have happened. So obviously, if the long list of ambitious projects identified by participants at the Gathering is to have a chance of implementation, new financial and human resources will need to be identified. If and when resources are identified, there will still be a need to identify the practical mechanisms to facilitate government-to-government collaboration as well as an additional mechanism to coordinate reconciliation activities at the citizen-to-citizen level. These practical questions were not fully explored at the Gathering.

Finally, it is important to be clear about the role each party plays moving down the road of reconciliation. In particular, Section 35 Constitutional rights (including Aboriginal title, governing authority, and jurisdiction) are not yet fully defined in law or implemented in the region. While clarifying and implementing these Aboriginal rights and title may be part of the necessary work of reconciliation, it is not something that local governments will be a party to. This work must be addressed at the provincial and federal government level.

However, this is not a reason to delay local action on reconciliation. All of the ideas generated at the Gathering can be implemented notwithstanding the need for the federal and provincial governments to engage in reconciliation with First Nations as well.

### **PART 3 - RECOMMENDATIONS**

Following the Gathering, the Organizing Committee met to share their reflections on the event, review the draft report, and discuss next steps. The following four initiatives are recommended:

1. The Council / Board of each participating organization receive the Gathering Report and commit to moving forward with reconciliation by way of a Council / Board resolution allocating the staff resources needed to keep the Nu'kw7ántwa' Regional Gathering Organizing Committee intact to lead the development of recommendations 2-4.

2. Convene a leadership meeting to draft a formal joint declaration on reconciliation that all governments in the Southern Stl'atl'imx region are invited to sign.
3. Create a standing Nukw7ántwał Intergovernmental Relations Committee to strengthen relationships, improve communication and foster regional collaboration; including a commitment of resources to support the committee.
4. Convene a meeting to discuss the future of Winds of Change, including the possibility of changing it into a regional citizen-based reconciliation initiative. Consider changing the name and reframing the terms of reference so that the committee mandate is to increase knowledge and awareness, to facilitate local dialogue, and to inspire individual commitment to reconciliation.

## Appendix A

### Background

The Village of Pemberton, Líl'wat Nation and SLRD have hosted a number of Community to Community (C2C) Forums, joint Council meetings and operational-level meetings over the past decade. These efforts have resulted in collaboration on projects of mutual interest like the Lillooet River Corridor Engineering Study, Lillooet River Flood Plain Mapping and Risk Assessment, Mount Currie – Pemberton Friendship Trail, Riverside Wetlands/Ském'em Community Park Management Planning, recreation services planning, transit funding, economic development planning, emergency management and advocacy, and Winds of Change.

Established in 2004, the Winds of Change Committee was formed to reduce the harm associated with drug and alcohol misuse. The Committee included a broad representation of Staff and Elected Officials from regional governments and community stakeholders including Líl'wat Nation, Village of Pemberton, SLRD, Vancouver Coastal Health, RCMP, Sea to Sky Community Services, Mount Currie Health Care Centre, Stl'at'imx Tribal Police, Youth Mental Health, School District #48, Xet'ólacw Community School, and N'Quatqua.

Líl'wat Nation, the Village of Pemberton and SLRD Area C provided funding to sustain Winds of Change through two five-year mandates, the last of which concluded in 2014. Up until 2014, the Winds of Change hosted an annual Wellness Gathering and Wellness recognition awards and funded annual student bursaries. Between 2014 and 2017, the Committee became dormant as many of the recommendations within the *'Winds of Change: A Healing Vision'* document had been implemented. However, Winds of Change evolved into the daily blog, *The Wellness Almanac*, which is a voice for practical reconciliation and wellness by championing respect, relationships, recreation and resilience, as tools for building stronger communities.

Despite these past joint initiatives, there continues to be a perception of barriers preventing the respective governments (and communities) from realizing the power of healthy and fully functional relationships. Furthermore, these collaborative efforts have not included the other Southern Stl'at'imx communities.

In order to enhance relationships and provide opportunities for dialogue, the SLRD in partnership with Líl'wat Nation, Samahquam, Lower Stl'at'imx Tribal Council, N'Quatqua First Nation, and the Village of Pemberton held the Nukw7ántwaí Regional Gathering. Nukw7ántwaí is a southern Stl'at'imx Ucwalmictwts word that means *"to help each other."*

Held in March 2017, the Nukw7ántwaí Regional Gathering was attended by Elected Officials and Senior Staff from the partner organizations as part of an on-going effort to strengthen relationships between neighboring communities in the Southern Stl'at'imx region. Much of the discussion on day two of the Gathering was how the group could capture the positive spirit of the day and use it as a springboard to positive collective action. As a result, four recommendations were drafted to ensure the discussion and work continued, including a recommendation to form an Intergovernmental Relations Committee, which is the subject of this Terms of Reference.

## Appendix B

### *Nukw7ántwaí Regional Gathering Recommendations*

2017

- The Council / Board of each participating organization receive the Gathering Report and commit to moving forward with reconciliation by way of a Council / Board resolution allocating the Staff resources needed to keep the Nukw7ántwaí Regional Gathering Organizing Committee intact to lead the development of recommendations 2-4.
- Convene a leadership meeting to draft a formal joint declaration on reconciliation that all governments in the Southern Stl'atl'imx region are invited to sign.
- Create a standing Nukw7ántwaí Intergovernmental Relations Committee to strengthen relationships, improve communication and foster regional collaboration; including a commitment of resources to support the Committee.
- Convene a meeting to discuss the future of Winds of Change, including the possibility of changing it into a regional citizen-based reconciliation initiative. Consider changing the name and reframing the terms of reference so that the Committee mandate is to increase knowledge and awareness, to facilitate local dialogue, and to inspire individual commitment to reconciliation.

2018

- Convene the “Nukw7ántwaí Intergovernmental Committee” with representation as set out in the draft terms of reference. Have the committee review, amend, and recommend the terms of reference to their respective principals for approval.
- Work collectively on emergency preparedness (use as a pilot for other joint sector working groups)
- Plan and host a celebration that involves food / food security
- Cross-cultural celebration (for example: Remembrance Day)
- Draft a joint declaration on Nukw7ántwaí and plan a signing/celebration event.

Dear UBCM Member Local Governments,

I am writing on behalf of Victoria City Council, requesting favourable consideration of these resolutions and that you share this support with the Provincial Government for the following resolutions. Unfortunately, despite the fact that we have an opioid crisis across the Province, these resolutions did not make it onto the floor of the UBCM at this year's convention as the resolutions session ran out of time.

(B171) Safer Drug Supply to Save Lives

Whereas It has been two years since BC declared a public-health emergency due to increased overdoses, yet the death toll for those consuming substances continues to rise due to an unpredictable and highly-toxic drug supply;

And whereas people with opioid use disorder, a chronic relapsing medical condition, are at high risk of overdose- related harms including death and an estimated 42,200 people inject toxic substances in British Columbia, it is not possible for the treatment system to rapidly increase services fast enough to manage this number of people as "patients" within a medical treatment model given the many challenges in achieving and retaining the people on opioid use disorder treatment, people at risk of overdose in British Columbia do not have access to a safer alternative to the unpredictable, highly-toxic drug supply:

Therefore be it resolved that in an effort to save lives and reduce harm due to an unpredictable and highly-toxic drug supply, and as part of a holistic response to the public-health emergency, including prevention, treatment, and recovery, that the Province of British Columbia work with local communities, Health Authorities across the Province, the Ministry of Mental Health and Addictions, and the Ministry of Health ensure that people at risk of overdose harm have access to safer alternatives.

(B172) Observed Inhalation Sites for Overdose Prevention

Whereas British Columbia is currently experiencing an unprecedented public health emergency due to an unpredictable and highly-toxic drug supply, and smoking or inhalation is the second most common mode of consumption among all people who have died from a suspected illicit drug overdose and the most common mode of consumption among men and those between the ages of 15 and 29;

And whereas observed consumption services (i.e. supervised consumption services and overdose prevention services) are evidence-based harm reduction approaches shown to reduce overdose-related harm, and there is not adequate access to observed consumption services that provide space for inhalation where communities are facing crisis:

Therefore be it resolved that to ensure that people at risk of overdose across BC have access to observed consumption services that provide space for inhalation, that the Province of British Columbia fund and work through local communities, Health Authorities across the Province, the Ministry of Mental Health and Addictions and the Ministry of Health to provide these services as part of a holistic response to the public-health emergency, including prevention, treatment, and recovery.

We eagerly look forward to your support on this matter.

Sincerely,

Lisa Helps  
Victoria Mayor

Dear Mayor and Council,

I am concerned about the cumulative impacts of multiple housing developments on our village infrastructure. The OCP seems to be the guiding document but it may be out of date considering the volume of recent development.

The OCP contains this paragraph (section 1.2):

*A complete overview of the status of the Pemberton community including community facilities, transportation, infrastructure, natural resources and culture is provided in a document entitled Snapshot Pemberton which is available at Village offices or online at [www.pemberton.ca](http://www.pemberton.ca). The Snapshot document is intended to be continuously updated in accordance with the Monitoring Program outlined within the Official Community Plan (to be added in the OCP in 2011).*

Has council received such a report in the last 5 years? Will council consider refusing first reading of any future zoning amendments containing up-zoning until there is a recent set of indicators provided to inform your decision?

Thank you,

Anna Helmer

**Message to Mayor & Council:** I am sorry that I was unable to attend the November 19th, 2019 council meeting where there was some discussion about the future of the land above Eagle drive. From what I understand the Village of Pemberton is anticipating an application for rezoning in the near future. I do appreciate that the developer is interested in a robust public engagement, but I want to be clear that my concerns are of a broader scope than that. I understand that we are in a pre application phase for the Benchlands, but I believe it's never too soon to think about whether it is in the best interest for Pemberton to approve new rezoning for development. There has been a lot of change in Pemberton since the Benchlands

plan was approved by a council in 2007. Since that time buildings like the Expedition station, The Elements, Radius, Orion, Tiyata, The Ridge, Sunstone, phase 1 of the Benchlands, Wye Land, Crestline, as well as many residential lots throughout the Village have been approved for development. I guess what I'm getting at is it seems that maybe at this current time the land that is developed and approved to be developed (2006-2019) can meet our needs for the growth that we are experiencing with out zoning or rezoning more. Is there a chance at the pre application phase to indicate to the developer that at this time it is not in the best interest of Pemberton to re zone more land for development? Lee Anne Patterson

*On behalf of Dr. McKee, Medical Health Officer, Coastal Rural*

Dear Elected or Appointed Officials in the Sea to Sky Corridor,

Vancouver Coastal Health has been working in partnership with local governments and other partners in the Sea to Sky Corridor to build healthier communities. To further this work we have created a Sea to Sky Healthy Communities Congress that will bring together elected and appointed officials from the Sea to Sky Corridor to discuss important issues impacting the health of their communities.

The Sea to Sky (STS) Congress is modelled after the North Shore Congress which has been an important forum for discussing key issues facing the communities on the North Shore of Vancouver for many years. We anticipate the STS Congress to be a half day annual event where elected and appointed officials from local First Nations, municipalities, the Regional District, the School District, MLAs and MPs can hear from inspiring speakers, discuss problems in a local context and work collaboratively towards solutions that can be implemented across the Corridor.

We would like to request that you save the date, **Thursday April 30, 2020 from 9:00 am to 1:00 pm** in your calendars for this event. The Resort Municipality of Whistler has generously agreed to host the STS Congress meeting, and we anticipate rotating it between communities in future.

Dear Colleague,

Vancouver Coastal Health and the Resort Municipality of Whistler invite you to the 3<sup>rd</sup> annual Sea to Sky Healthy Communities Congress:

**Sea to Sky Healthy Communities Congress**

**Thursday April 30, 2020**

**Meeting will be from 9:00 am to 12:00 pm  
Complementary lunch from 12:00 to 1:00 pm  
Location: Squamish Lil'wat Cultural Centre  
4584 Blackcomb Way, Whistler**

The purpose of the Congress is to bring together Sea to Sky decision makers from local jurisdictions and stakeholder organizations (Municipalities, First Nations, Regional District, School District, Divisions of Family Practice, First Nations Health Authority, and Vancouver Coastal Health etc.) to discuss the determinants of health, social well-being, vitality, and sustainability of our communities. These issues are not specific to any one jurisdiction and so their solution demands broad understanding and collaborative action.

We hope to have as many members from your councils and boards as can make it along with the senior administrator or other key staff from your organization.

This year our theme is **Social Connectedness and Community Resiliency** and we will explore how developing strong social connections builds healthy, resilient communities. We will look at the data from My Health My Community and learn from local examples. We will then work with each other to explore how to apply these concepts for greater impact in our communities.

Please put this in your calendar now and confirm with Roya Dolling at [Roya.dolling@vch.ca](mailto:Roya.dolling@vch.ca) or by phone at 604-983-6701 if you are able to:

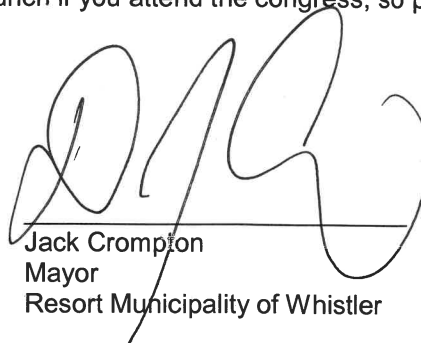

- attend the Congress from 9:00 am to 12:00 pm and
- join us for a delicious lunch provide by the Squamish Lil'wat Cultural Centre from 12:00 to 1:00 pm and if you have any dietary restrictions

We will not automatically assume you are staying for lunch if you attend the congress, so please be sure to let us know if you can stay for the meal.

Sincerely,

Dr. Geoff McKee

Dear Mayor Richman and Council:

I am writing to thank you for meeting with me and my colleague, the Honourable Judy Darcy, Minister of Mental Health and Addictions, at the 2019 Union of British Columbia Municipalities Convention, which took place on September 23-27, at the Vancouver Convention Centre.

I am greatly encouraged by the success of our meeting at this year's convention, themed *Resiliency and Change*. With nearly 2,000 community leaders in attendance, local governments came together with a common objective to learn from each other, and to discuss the needs and resources across communities, regions and the province.

In our meeting, we discussed the gap in services that Pemberton is experiencing regarding Child and Youth Mental Health. You relayed that you currently have a child and youth hospital liaison working in Squamish, which can be difficult for some people to get to, as it is up to two and a half hours away for some remote residents. You are hoping for help with funding for a CYMH collaborative group that was funded last year by the doctors of British Columbia.

Minister Darcy provided some details about some Ministry of Mental Health and Addictions initiatives that may help, such as Pathway to Hope; Confident Parents, Thriving Kids; virtual counseling and online access to various mental health programs through the Canadian Mental Health Association.

I was pleased to hear that Pemberton is happy with the work the Ministry is doing on child care and with the new information that was announced at the convention regarding funding for new child care spaces. We look forward to continuing to work with municipalities like yours on growing child care in this province.

You may wish to contact David McQuarrie, Director of Operations for the Coast North Shore, to discuss how we can help with getting more resources for CYMH into your community, or to discuss other matters at the local level. He can be reached at 604 904-4315 or by e-mail at: [David.McQuarrie@gov.bc.ca](mailto:David.McQuarrie@gov.bc.ca)

Dear Mayor Richman and Councillors:

I am writing to thank you for meeting with me at the Union of British Columbia Municipalities Convention, which took place September 23 to 27, 2019, at the Vancouver Convention Centre in Vancouver, British Columbia.

We are greatly encouraged by the success of this year's convention, themed *Resiliency + Change*. With nearly 2,000 community leaders in attendance, local governments came together with a cohesive voice to discuss the needs and resources of communities, raised issues and ideas important to their communities, and learned about commonalities across the province.

In our meeting with the Honourable Katrine Conroy, Minister of Children and Family Development, we discussed the success you've seen with support services in the remote communities around Pemberton. You also voiced your support for this government's childcare plan.

We also discussed some of the challenges you've come up against in the last year, including difficulty accessing services in Squamish due to distance and a desire for improved access to services at the Pemberton health clinic, including mental health services that are currently offered out of the Ministry of Child and Family Development office.

Noting your region's young average age, it's important to find ways to support child and youth mental health. There are a number of online and telehealth options available to support kids that may be of interest to you, including Confident Parents, Thriving Kids, and Bounce Back. I have included a list of additional resources that may be of interest to you. I also recommend you encourage your local school district to apply for recently announced funding from the Ministry of Education to support school districts in establishing mental health supports for students.

Our government continues to be committed to making the mental health and addictions system work for all British Columbians by providing people with care when, where, and how they need it.

As mentioned in our meeting, British Columbia's *A Pathway to Hope: A roadmap for making mental health and addictions care better for people in British Columbia* (the Roadmap) was released in June 2019. You can view the Roadmap here:

[https://news.gov.bc.ca/files/BCMentalHealthRoadmap\\_2019.pdf](https://news.gov.bc.ca/files/BCMentalHealthRoadmap_2019.pdf).

The Roadmap is designed to improve the mental health and wellness of all British Columbians by ensuring people get access to the services they need to tackle problems early on.

This targeted approach is the beginning of a much larger, more enhanced, and comprehensive way we view and deliver mental health and addictions care in BC. The Roadmap will allow all people living in BC to thrive in their communities, while equally valuing mental, physical, emotional, and spiritual health and well-being.

Thank you again for your input and participation. I look forward to continuing to work with you as we move forward to improve mental health and addictions services for all British Columbians.

Yours sincerely,

A handwritten signature in blue ink that reads "Judy Darcy". The signature is written in a cursive style.

## Rural & Remote Mental Health and Substance Use Services

### Ensuring access through online and tele-health resources

We recognize British Columbians living in rural and remote areas are faced with unique challenges in accessing appropriate and culturally safe mental health and addictions services. Virtual care services have the potential to bridge existing gaps in service by providing timely access to appropriate interventions and helping people locate supports before they reach crisis.

To support this, the Ministry of Mental Health and Addictions, along with the Ministry of Health, is investing in innovative technology to provide individuals and physicians with free, user-friendly access to reliable information, screening tools, and psychological support. This includes providing mental health and substance use services to rural and remote communities through mobile clinical teams, e-Mental Health, tele-health, and travel assistance programs for both patients and physicians.
